DETAILED ACTION

Examiner acknowledges receipt of the amendment on 12/7/05. According to the amendment, claims 50-53 have been added, claims 14-20 and 34 have been withdrawn from consideration, and claims 1-20, 34 and 38-53 are pending in the application.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-13 and 38-53 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are simply a collection of abstract ideas. There is clearly no physical transformation. Also, the claims are not useful, concrete and tangible. The practical application of the claims is not disclosed. What is the disclosed practical application? Simply selecting teams with no clear end result is not statutory.

Response to Arguments

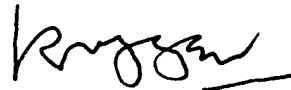

The claims as amended have been carefully considered in view of applicant's explanation. However, the claims are still non-statutory under 35 USC § 101 because there is clearly no-physical transformation. The claims are simply a collection of abstract ideas because the practical application of the claims is not disclosed. Simply selecting teams with no clear end result is not statutory.
